External Consulting Interest Group

Next meeting is July 18, 2014. Tim Ricke, an author, a coach, a past Entrepreneur of the Year, will share with us the secrets of Sensory Networking that he has learned through three decades. Sensory Networking provides you with a powerful system enabling you to build memorable business relationships and

AUGUST 15th PROGRAM

Large Group Intervention Methods: *Accelerating Change through Action Learning*

We will meet on August 15, 2014 (date change from August 8) for an experiential exploration of OD techniques, action learning processes, and models for large group interventions. We will explore several techniques in "real time" using the GOOD Network as our focus.

Members will participate actively in an intervention process to assure that our founding values serve us well into the future. In this intervention we may utilize: Crowdsourcing, Future Search, Force Field Analysis, Stop/ Start/ Continue and other techniques during this process. Not only will we see OD methods demonstrated, but we will also be "mining our members for strategic gold" to help plan and strategize the the future of GOOD Network.

This will be action learning at its best. We will learn large group intervention techniques by experiencing the process, and we will walk away with tools, how-tos, and resources to use in our own organizations and consulting practices.
